

Smart Business Services & Solutions

Broad Expertise

to provide you with knowledge across a variety of disciplines

Cost Effectiveness

to offer predictability and consistency during your business cycle

Smart and Fresh approach

because we believe in the simple not the complex

ABOUT US

Our vision is to be a customer centric firm, constantly focusing on providing high quality services from beginning to end.

We are highly specialised. Each member of our team is focused on his specific area, to give you the highly specialized knowledge you can have.

We understand the needs of businesses of all shapes and sizes, in any industry, and work to offer the better options for your business.

We give you everything you need at a price you can afford, as we offer different solutions to dramatically decrease your costs.

LEGAL SERVICES

Business has always issues that may suddenly come up. We can help you navigate the legal landscape in a timely and cost effective way.

With our legal services, you can benefit of our broad expertise in the following areas:

Privacy (GDPR) Compliance

We have extensive experience in helping clients to minimise the legal risks associated with data protection, especially with reference to GDPR. Our experience includes:

- privacy and GDPR compliance
- Data Protection Impact Assessments (DPIAs)
- legal issues surrounding personal data sharing and transfer
- external Data Protection Office (DPO) services

Contract & Commercial Law

We understand business and how legal solutions support commercial success. We have considerable experience in contract and commercial matters, including drafting, reviewing and negotiating:

- agency, distribution and franchise agreements
- IP and content licenses, NDAs
- terms and conditions for purchase and supply of goods and services
- manufacturing, outsourcing, partnership and joint venture agreements

Information Technology

We act for technology suppliers, from entrepreneurs to multinational and organizations, advising on several technology-specific fields:

- software development, licensing, reselling, distribution, OEM and SaaS
- procurement of hardware and network communications infrastructure
- maintenance of hardware, software, source code and escrow agreements
- systems procurement and integration managed services

OUTSOURCED IN-HOUSE LEGAL OFFICE

Business implies everyday legal issues and problems. We can help you to find the right path also on a daily and cost effective basis.

With our recurring outside legal services, you can combine our legal services with the following benefits:

Easy-going approach

A reliable legal advice can be just a phone call away: we work with you to find the best course of action for your company's unique needs based on a trusted and easy-going working relationship.

Reduced risks

We have the experience and background to understand the issues from both a business and legal perspective; we will allow you to make informed decisions that mitigate potential risks.

Just sit back and focus on running your business

Outsourcing the legal office you and your team are relieved of the burdens of dealing with legal functions, so you can focus on what really matters for your business.
